

Planning, Improvement and Innovation

Nationally Recognised Training

What is this course about?

The planning, improvement and innovation cluster focuses on acquiring the required skills to plan, implement and monitor operational and continuous improvement systems to achieve your organisations objectives.

This 4-day workshop will focus on implementing an operational plan and improvement systems by monitoring and adjusting operational performance, planning and acquiring resources and providing reports on performance to identify opportunities for further improvements.

Who should do this course?

This workshop is suitable for individuals working in a supervisor, coordinator or leading hand role who are responsible for implementing the organisations safety policies, procedures and programs in a work area.

How is the course delivered?

Schrole Develop delivers this course as a 4 days face to face workshop. At the end of the workshop you will obtain a statement of attainment under BSB42015 Certificate IV in Leadership and Management for the following units:

BSBADM409 Coordinate business resources

BSBMGT402 Implement operational plan

BSBMGT403 Implement continuous improvement

Full Course Cost: \$900.00

Onsite at your workplace:

This course can be customised and delivered onsite as an in-house program (minimum numbers apply).

Can I apply for Recognition of Prior Learning or Credit Transfer?

Schrole Develop will provide credit to learners for units of competency where these are evidenced by either an AQF certification document issued by another RTO or AQF authorised issuing organisation.

How do I enrol?
